

# PROMETON 12.5% HERBICIDE CONCENTRATE Product # 324

*Highly dilutable, non-selective herbicide*

This non-selective herbicide concentrate is designed for use around buildings, industrial sites and other non-crop areas where complete control of all vegetation is desired. It controls hard-to-kill perennial weeds and grasses quickly, and stops them from coming back for at least one additional growing season. It can be diluted with either water or oil, and is absorbed through both foliage and root contact.

## Non-Selective Herbicide With Residual Control:

- Along pipelines.
- Around buildings
- Industrial sites
- Railroad rights-of-way
- Loading ramps
- Parking lots
- Fence rows
- Storage yards
- Tanks farms

## Features and Benefits

- Powerful concentrate that may be mixed with water or oil
- Quickly and effectively eliminates all vegetation
- Under normal conditions, a single application stops weeds from coming back for one growing season
- Ideal for use on non-cropland area
- The degree of control and duration depends on the amount of herbicide applied, soil type, rainfall and other conditions

## Properties

Appearance.....	Reddish-brown liquid
Fragrance .....	Petroleum distillate
Concentrate.....	Yes
Flash point.....	117 ° F

## Directions Complete directions on product label

**For annual weeds**, apply 10-15 gallons diluted with 50-100 gallons per acre.

**For hard to control weeds**, use 40-60 gallons mixed with 50-100 gallons water per acre. **For faster top kill** apply diluted with diesel oil, fuel oil or weed oil.

Authorizations: EPA registered product.

## Ingredients

	Amount
Prometon 2,4-bis(isopropylamino)- 6-methoxy – trazine .....	12.5%
Inert Ingredients .....	87.5%

## Safety

Danger: Corrosive. Causes eye damage. Causes skin irritation. Harmful if swallowed, inhaled or absorbed through skin. Keep out of the reach of children.
